RECYCLABILITY @ CONSTANTIA FLEXIBLES

OUR AMBITION

We are committed to a circular economy, driving the transformation with more sustainable packaging.

2021 PERFORMANCE

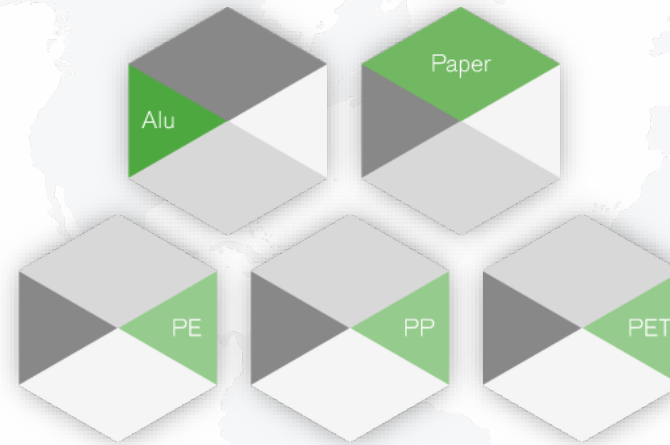

54%

of packaging sold is recyclable

rethink
packaging

RECYCLABLE MATERIALS USED

RESPONSIBLE SOURCING

asi Aluminium
Stewardship
Initiative

In order for Constantia Flexibles to consider one of its products recyclable, it has to be designed in accordance with Design for Recycling (DfR).

Guidelines and an existing

COLLECTION + SORTING + RECYCLING
infrastructure is proven to work in a relevant geographical area.

Opening of the first plant on the planet designed to produce recyclable flexible packaging only (Ecoflex Ahmedabad).

EcoLam by Constantia Flexibles is a whole product family of monopolymer laminates based on PE.

Our Vision

We envision a world in which packaging provides people with the highest benefit at the lowest impact on the environment.

Our Mission

We rethink packaging every day to make a positive, sustainable and meaningful contribution to our customers and the environment.

We are driven by passion and our aspiration for know-how and competence to make people's lives healthier, better and safer.

LONG-TERM PARTNERSHIPS WITH CUSTOMERS

Master reel
Slitting

SATELLITE

Satellites are located near customers, specialize in small- to medium-sized volume orders, and generate major market shares in local and/or surrounding countries.

Printing Gravure / Flexo

Artwork is received & tooling is produced. Printing with either flexo sleeves, flexo cliches, or gravure cylinders occurs.

Printed Reel Slitting

Large reels are slit down to the customer's finished width.

Final Packaging

The smaller reels are packed according to the customer's requirements.

Shipping

Dispatch occurs after quality release after 10-15 days of receipt of order.

SUPERIOR QUALITY, CONTINUOUS IMPROVEMENT AND PRODUCT SAFETY

- ✓ Integrated corporate-wide Quality Management System - ISO9001 based
- ✓ Advanced certifications according to international standards, our plants meet all the demands facing a global company
- ✓ Consistent traceability in our whole supply chain, from raw materials to each single packaging unit
- ✓ Raw materials are sourced from competed and reliable suppliers
- ✓ Full compliance to legal and customer requirements
- ✓ Competent quality control labs at our sites

HEALTH, SAFETY, SECURITY & ENVIRONMENT (HSSE)

LTIFR REDUCED BY MORE THAN 25 %

The Lost Time Injury Frequency Rate (LTIFR) improved within Constantia Flexibles Group worldwide by more than 25% within the last three years.

It's our duty to create and maintain a safe & sustainable work environment.

ZERO LOSS – NO HARM

Accidents affect your loved ones too.

3

INNOVATION

We invest in innovation.

Innovation is at the core of our DNA.

We strongly believe that only those who rethink packaging every day will succeed together with customers and ultimately with consumers alike.

GLOBAL R&D NETWORK & GOALS

WE ACT AS A GLOBAL COMPANY FOR OUR GLOBAL CUSTOMERS!

- Driver of Push Innovations based on cooperation with suppliers and other external partners
- Supporting market and customer-driven innovations
- Improve efficiency in raw materials usage and production
- In- and external technical consultant
- Global knowledge transfer and standardization of raw materials
- Sustainable transformation

rethink
packaging

R&D GOALS FOR MORE SUSTAINABLE PACKAGING DEVELOPMENT

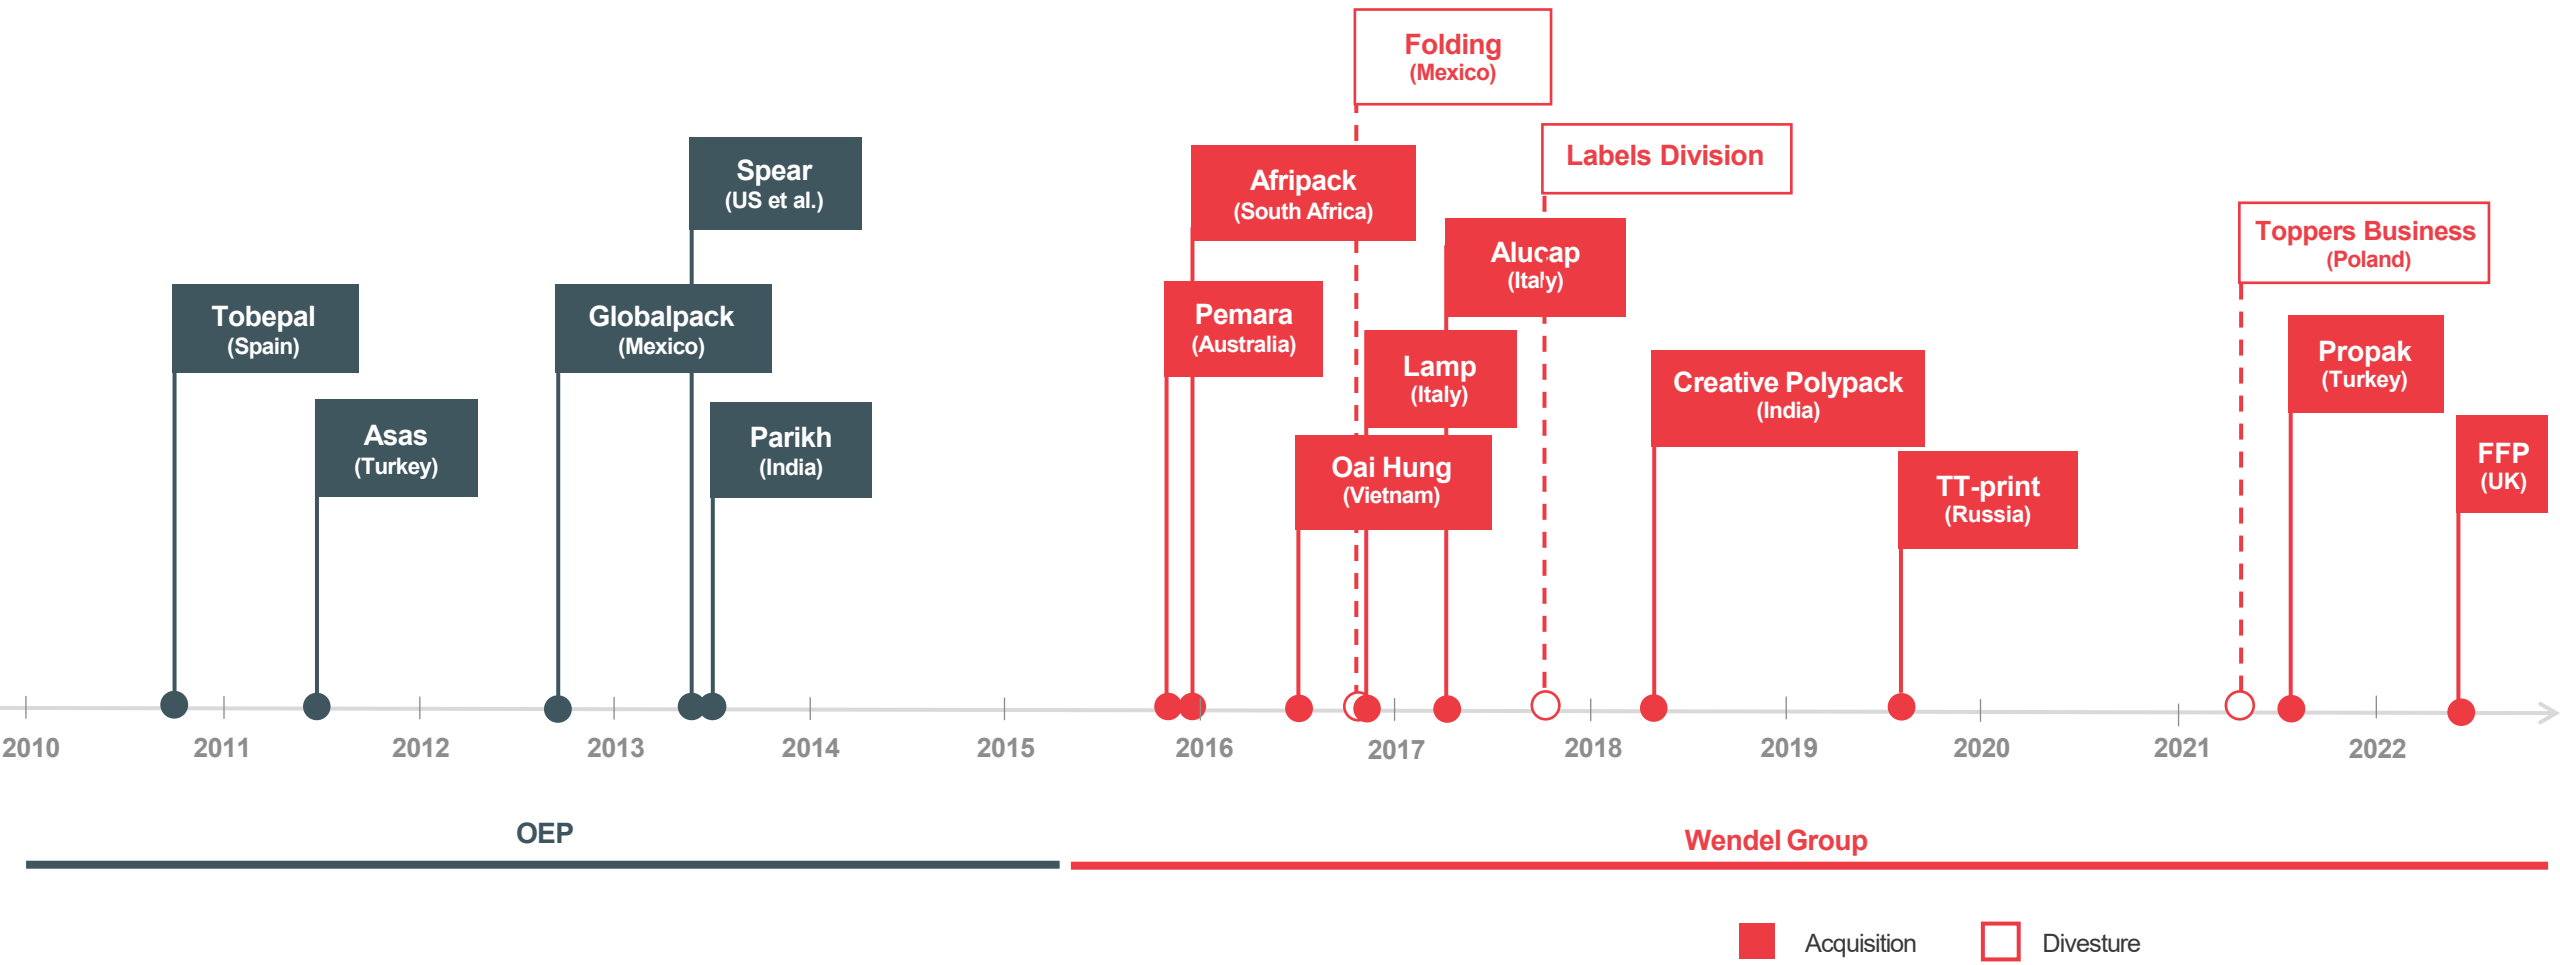

We are growing strongly.

Our ambition for growth, together with our customers, is what keeps us going the extra mile every day. Both, growing organically and through strategic acquisitions, we aim for short to long term.

STRONG TRACK RECORD OF M&A

TOTAL FLEXIBLE PACKAGING MARKET

Size & Growth by Region

SUSTAINABILITY IMPACT ON CONSTANTIA FLEXIBLES

Expected market development by substrates in flexible packaging

Projected flexible packaging market in key regions
(Western Europe, US and India), in volume (M tons)

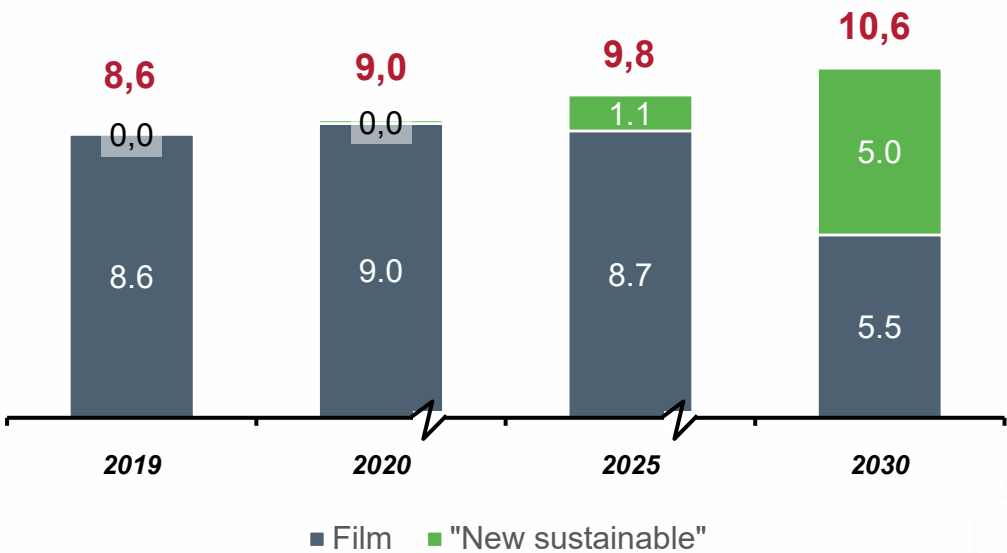

“Conventional” film-based structures to decline by ~5% each year over the 2020/30 period

Sustainable structures to show a massive growth (~50% p.a.) over the forecast period

Overall film growth estimated at ~2% year-on-year, i.e., >60% of total flexibles growth in absolute terms, ahead of other structures, Alu and paper

Film

COMPETITOR OVERVIEW

Top 10 flexible players globally, revenue (EUR bn)

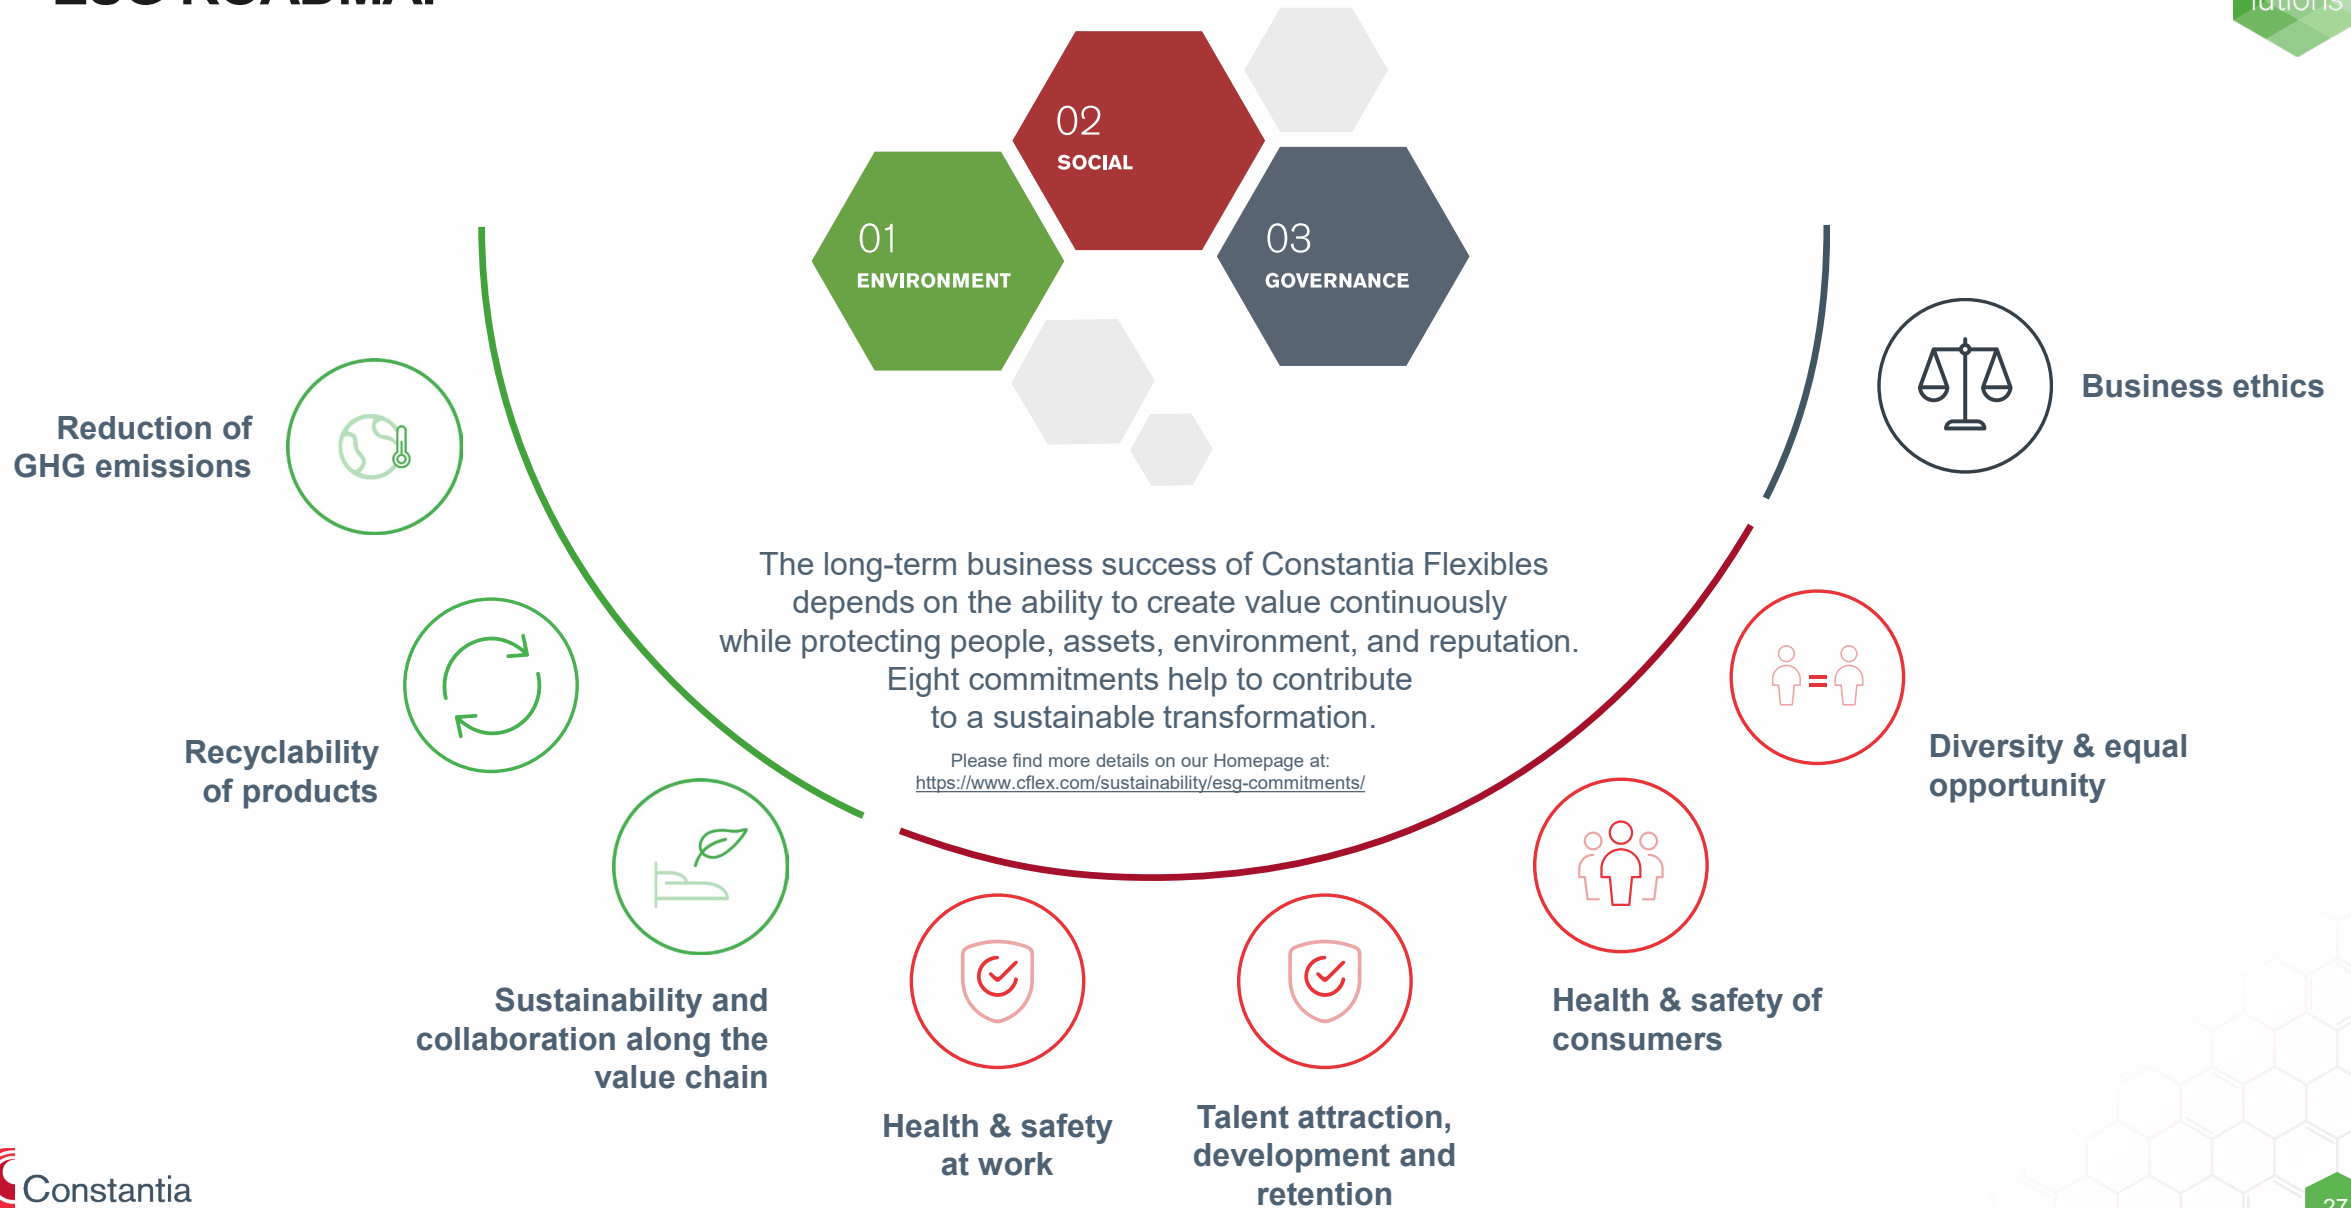

Information herewith stands for converted flexibles only; tertiary & secondary flexibles as well as industrial applications are excluded

rethink packaging

We envision a world in which packaging provides people with the highest benefit at the lowest impact on the environment.

ESG ROADMAP

SUSTAINABILITY SOLUTIONS: 360° ECOLUTIONS APPROACH

Ecolutions is a 360-degree approach offering more sustainable solutions for all major packaging groups and substrates.

Ecolutions ensure that our packaging continues to preserve food and reduces waste. They can be recycled or reduced (by weight) and, at the same time, we can increase their recycled content.

Ecolutions have been adopted by several FMCG companies in different end markets.

NUMBER OF EMPLOYEES BY REGION

Thanks to their skills and performance, the employees of Constantia Flexibles are at the core of its success.

Therefore, a crucial part of the company's strategy is communicating the sustainability policy to all employees and supporting them with the necessary knowledge to integrate environmental responsibility into their daily work and operations.

This makes sustainability a key success factor for all business activities, from operations, R&D, to product management and sales.

rethink
packaging

EXPERIENCED PEOPLE WITH PASSION FOR PACKAGING

CULTURE & RESPECT

- Diversity and equal opportunities
- Three core competencies:
Driving customer value, fostering collaboration, passion for results
- Full commitment to Global Ethical standards SEDEX, etc.,

LEARNING & DEVELOPMENT

- Global Training Toolbox for all employees, focusing on hard and soft skills
- Sales Academy to broaden skills of a salesforce
- Executive Leadership Program for managers
- Finance Academy for non-finance professionals
- Operational Excellence Center for all employees driving for lean six sigma know-how

REWARDS & BENEFITS

- Compensation philosophy based on individual performance
- Subsidized canteens, gym membership, commuting to work
- Team events
- Medical care (e.g., company doctor, medical checks)

BEING A GOOD CORPORATE CITIZEN IS IN OUR DNA

Cooking for homeless people at VinziRast shelter

📍 **Vienna**

Constantia Flexibles' employees from the Rivergate headquarters cook once a month in teams of 3-4 people for homeless people who sleep at the shelter.

Sponsorship of students with migration background

📍 **Austria**

START Austria, a sustainable initiative, wants to contribute to the educational careers of talented students with a migration background, supporting their social commitment and community involvement to facilitate integration.

Santa Shoebox Project

📍 **South Africa**

Employees collect and distribute gifts in boxes for underprivileged children.

The shoeboxes are distributed to more than 1000 recipient facilities each year. In 12 years, the project has reached 762 594 children.

Sponsoring a School

📍 **Mexico**

The project "Sponsoring a School" was created for schools from rural zones that lack infrastructure.

Christmas toys, food and supplies

📍 **Mexico**

Poor rural communities in the San Luis Potosi State are visited in order to give children gifts.

PROCESSED MEAT

PET CARE

Preformed aluminum trays and lids are ideal for the special packaging requirements of wet pet food.

HUMANFOOD

Fully retortable, preformed aluminum trays and lids can be used for various food products.

CAPSULES

Small, aluminum-based portion packs for liquids, gels, powders,
... offer the best barrier and processing properties.

INNOVATIONS LIKE

EcoAluTainer / DecoTainer / OvenTainer

unique aluminum-based portion packs with special features e.g., sustainability, marketing & design, process-ability

POUCHES & BAGS

PRODUCTS

 CONSUMER

PROCESSED MEAT

WET PET FOOD

Pouches are a common flexible packaging format for wet pet food and are a modern and flexible packaging solution.

WET HUMAN FOOD

Pouches packed with preserved food are a modern and flexible alternative for traditional rigid packaging solutions.

DRY PET FOOD

Bags and pouches are an efficient and convenient packaging solution for dry pet food in multi-use formats.

RETORT LIDDING

Retort lidding films and laminates are convenient and based on aluminum or plastic-barrier films.

Chilled MAP Films

Flowpacks and lidding films with special barrier properties to be also used for modified atmosphere packaging.

Dry Laminates

Packing laminates for dry and meat-based products.

DIE CUT LIDS

PRODUCTS

 CONSUMER

DAIRY

EasyPeelCover

Aluminum die-cut lid with Constantia Flexibles proprietary coextrusion coating.

EcoMultiCover

The proven heat seal lacquered unembossed aluminum die-cut market standard.

PaperLid

The 3-layer aluminum free die-cut lid solution.

REEL FED LIDDING

PRODUCTS

 CONSUMER

DAIRY

EcoMultiLidding

Aluminum reel fed lidding material specification for FFS fillers.

Flexpap

An aluminum free Paper/PET laminate sealing against PS.

Banderole

Paper-based banderole to enhance the packaging of a product. High-Gloss and Metallized available.

BUTTER & CHEESE

PRODUCTS

 CONSUMER

DAIRY

Low Seal Lidding

Tight and peelable seal on PP and PS containers at significantly lower temperatures, especially for margarine.

ComiWrap

Polyolefin Film with a high amount of mineral fillers.

CoverLeaf

CoverLeaf for margarine, butter and fatty spreads filled in cups; non-sealable fillings.

Melted Cheese Packaging System

Constantia Flexibles system supplier for melted Cheese packaging: shell foil, lid foil, and tear strip.

StickPack

For packing dairy products into a duplex or triplex flow wrap, adapted accordingly to the filling good and the customer request.

Promotion Coding

A wide array of solutions for promotional coding: Inkjet: the individual code is printed – possible on both sides Reverse print: limited codes available.

FOIL

Wrap for Seasonals & Pralines

Produced of printed or lacquered aluminum foil with a thickness of 9 - 20 μ , can be used for deep draw applications.

FOIL

Chewing Gum Inner & Outer Wrapper

The chewing gum outer wrapper is produced out of printed aluminum and paper laminate.

The chewing gum inner wrapper is produced of aluminum paper laminate with wax or glue application.

FOIL

TabletFoil

Classic aluminum wrapper for chocolate bars.

FOIL

BarsWraps

Paper with aluminum laminate in reels - depending on the application requirements, it is either produced in wax or glue lamination.

TWIST

EcoTwist & Wrapstar

Due to the multilayer structure, Constantia Flexibles can provide twist solutions for very specific customer requirements.

FILM

Tablet Film

Wide variety of film laminates, partial cold seal application. Matt or Glossy appearance; high-speed sealing.

FILM

Confectionery Pouches

Wide variety of film laminates with excellent seal properties. Premium look; matt or glossy appearance; easy opening by laser cut or easy line.

FILM

Chewing Gum Film

Wide variety of film laminates with excellent seal properties. Matt or Glossy appearance; perfect aroma barriers.

This photo is still being processed

Nuts & Seeds Lam

High barrier solutions with aluminum or aluminum-free laminates.

Savory Pack

Specialized production on dedicated printing line with inline lamination.

Dried Foods

Film laminates guarantee the product's shelf life due to outstanding barrier properties and hermetic seal quality.

This photo is still being processed

BabyFoodPack

A high barrier laminate suitable for various vertical and horizontal FFS pouch formats.

Sauce & DressingLam

A laminate with specific components designed for aggressive filling goods and hot fillings.

CoverLeaf

CoverLeaf for margarine, butter, and fatty spreads filled in cups; non-sealable fillings.

DryFoodPouch

Special developed multilayers for all kinds of packaging formats: pouch, doypack, sachets, etc.

CubeFoil

Aluminum laminates with film or paper to form folded or sealed cubes.

Lidding Materials

For the closing of any capsule material (e.g., PP, PE, PBT, ALU, PLA) Lacquered, coex-coated, film laminates, recyclable(-ready), compostable in development.

Stick Pack

Special developed multilayers for stick packs.

Coffee & TeaBags

Special developed multilayers for all kinds of packaging formats like pouches, doypacks, sachets, etc.

Liquid Pouch

Reel-fed plastic material for pouches containing liquid beverages.

High performance laminates for sausage packing

For this demanding field of application, we developed laminates that offer outstanding processing qualities, high puncture resistance, and barrier properties, as well as strong and pinhole-free sealing.

TECHNICAL FILMS & FOILS

PRODUCTS

 CONSUMER

NON-FOOD APPLICATIONS

TECHNICAL FILM

High Performance Laminates for non-food application

High performance laminates for technical filling goods like silicones, sealants, adhesives and powders. Our technical films offer outstanding processing qualities, puncture resistance, barrier properties as well as strong and pinhole-free sealing.

TECHNICAL FILM

EcoVerHighPlus for sealant packaging

Mono PP laminate with ultra high barrier.

EcoVerHighPlus for Technical Films was tested at Cyclos for recyclability and its result for unprinted version certifies a 95% recyclability.

TECHNICAL FOIL

Technical Foils for industrial applications

Our foils composites (lacquered or coextruded) can be used in construction, air conditioning, trains & aircrafts, the cable industry or in the automotive sector. If a packaging is not to be assigned to Human & Pet-Food, Pharma or Health Care, it belongs to Technical Foils.

Promotional & Retail Sachet

Customized packaging solution for your individual needs.

DoyPack

Customized structures that fit your needs.

ShowerLam

Customized flexible laminates for liquid soaps.

SoapWrap

Reliable quality packaging for block soaps, offering suitable protection – monomaterial available.

CARRIERS

PRODUCTS

PHARMA

CARRIERS

(COLDFORM FOILS)

REGULA *(Coldform)*

Most economical ultra-high barrier blister packaging.

LUBRICA *(Coldform Lotus)*

Customized solution with antistick effect.

RESISTA *(Coldform Resist)*

High chemical resistance due to special lamination technology.

RIGIDA *(Coldform Penta)*

Coldforming foil supporting outstanding pocket dimensions.

COVERS

PRODUCTS

PHARMA

COVERS

(LIDDING FOILS)

NORMA *(Blister)*

High-performance lidding foils for blister packaging.

SALVA *(Blister Eco)*

Uses less aluminum, less heat-seal lacquer, and more paper.

PURA *(Contact Lenses)*

Lidding foil for contact lens packaging.

MERA *(Syringes & Catheters)*

Packaging for keeping syringes and catheters sterile.

CASES

PRODUCTS

PHARMA

CASES

(LAMINATES)

FLEXA *(Flexible Blister)*

An innovative strip pack for oral dosage pharmaceuticals, dietary supplements, and personal care pills or tablets.

SECURA *(Safemax)*

Aluminum container for medical devices.

FRUGI *(Stick Pack)*

Convenient and economical for moisture-sensitive solid, liquid, and semi-liquid products.

VELAR *(Overwrap)*

Packaging foil designed to wrap medical devices.

CHILD-RESISTANT FEATURES

PRODUCTS

PHARMA

CHILD-RESISTANT FEATURES

APERTA *(CR TOF)*

Opening feature that uses needles to microperforate the PET layer laminate.

FORTE *(CR Upgraded)*

Lidding foil for child resistant blister.

LUX *(CR Laser)*

Selective weakening of PET layer by a laser beam.

TRIA *(CR Peel & Push)*

High level of safety thanks to the three steps necessary to access the product.

ANTI-COUNTERFEITING FEATURES

PRODUCTS

PHARMA

ANTI-COUNTERFEITING FEATURES

ORIGA

(TEOS)

Lidding foil is destroyed upon opening and cannot be restored.

MUTA

(Holograms)

Change in appearance when the packaging moves.

GRAPHICA

(Security Graphics/Designs)

Difficult to replicate due to special software and engraving technology.

COLORA

(Security Pigments/Ink)

Unique optical effects through the use of special inks and color reactions.

INTRA

(Security Foil)

Integrated security feature through custom design, with no change in specification.

OUR BRANDS – OUR PROMISE

Consumer

**WE'VE
GOT THIS
COVERED.**

Pharma

**LET'S
SAVE LIVES
TOGETHER.**

Consumer

WE'VE GOT THIS COVERED.

WHAT DOES IT MEAN FOR YOU?

It's literally what we do.
= reliable and protective packaging

We've got you covered!
= our commitment to our partners

We've got this!
= "we'll make it work"-attitude

We've got your back.
= our commitment to culture and people

Consumer

Why are we telling you this?

Because we want to reassure you that we are committed to protecting your goods with the attitude “We’ve got this covered”.

Consumer

Together, we've got this covered

We develop the right packaging format for you with the highest graphic quality and food safety standards.

We adapt to your consumer needs and market trends.

We understand our responsibility for the environment, and our goal is to drive change in the industry toward more sustainable packaging solutions.

We can ensure that good things are preserved.

We transform global challenges into sustainable solutions.

8

OUR BRANDS – OUR PROMISE

Consumer

**WE'VE
GOT THIS
COVERED.**

Pharma

**LET'S
SAVE LIVES
TOGETHER.**

Pharma

We're not astronauts.
We're not firefighters.
We're not doctors.

But as we do our jobs right – even the small things –
people get their medication safely. And that's exactly
what can save somebody's life.

We are not just producers of pharmaceutical packaging. We do more than simply turn aluminum into packaging solutions. We ensure that people get their medication safely.

Together with our partners – pharmaceutical companies around the globe – **we save the lives of millions of people.**

**LET'S
SAVE LIVES
TOGETHER.**
