

Heat Seal Liners

One-piece, paper-backed
induction heat seal

In an effort to minimize environmental impact, brands are looking to replace traditional packaging components with alternatives made from renewable materials. Heat Seal liners from TekniPlex feature a paperboard backing and minimal aluminum foil to provide the same strong induction seal as conventional liners.

Heat Seal offers cost-effective product protection for a range of consumer goods such as nutritional supplements, OTC medications, and dry foods.

Features and Benefits:

- Renewable paperboard backing provides dimensional stability
- Tamper evident leak protection
- Universal induction heat seal for multiple container types
- Available with standard or custom print
- Classified in the same Drug Master File (002518) as polystyrene-backed alternative

Rethink[®]
RESPONSIBLY

TekniPlex's HS035/10WPB liner is constructed with a **renewable paper backing** and **reduced foil** for optimized material usage.
