

Laminazione Sottile

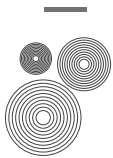

## Coils and Sheets for Aluminium Closures

### We believe in **quality**

We are continuously investing in **advanced** and **innovative technologies** to enhance our production process. We manufacture **aluminium for closures** according to the **highest quality standards**, supplying our Customers all over the world.

### We are a **reliable partner**

Nearly **100 years** of experience in **aluminium rolling** and the **solidity** of our Group make us a trustworthy partner for your business. We support you with **our know-how**, **high quality products** and **dedicated attention** throughout all our partnership.

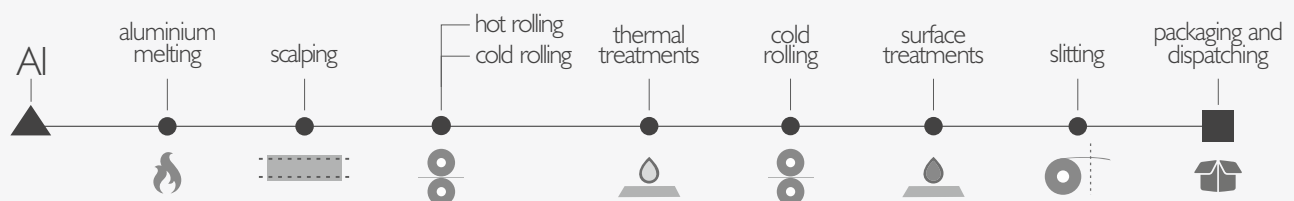

### We sustain **recycling**

We take our commitment to **sustainability** very seriously. We actively support **aluminium recycling** inviting our partners to take part to this value chain and to expand the use of this amazing, **infinitely recyclable metal**.

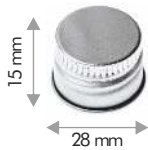

How we manufacture **aluminium coils** and **sheets** for closures

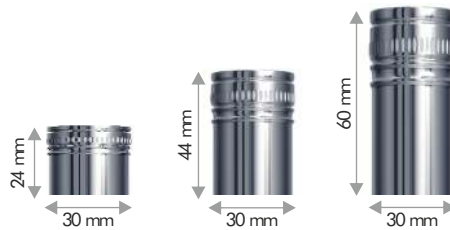

# Typical Alloys we manufacture

Thickness range  
0,18 - 0,24 mm

3xxx

8xxx

5xxx

These features are suitable for

PP CAPS FOR CARBONATE DRINK - EXTRA DEEP CAPS - ROLL ON CAPS -  
RING PULL CAPS / MAXI P - OMNIA CAPS - CROWN CAPS

We guarantee **dedicated treatments** in order  
to provide **high quality material**

## Chemical degreasing

This treatment is carried out to guarantee the **perfect cleaning** of aluminium from manufacturing oils.

## Surface pre-treatments

We offer 2 types of surface pre-treatments:

- Cr + 3 based
- Cr + 3 Free

These treatments **protect aluminium** against corrosion and improve the following adhesion of coating.

We can provide **Mill-Finish** or **Bright-Finish**  
**Lacquered** on request
